

#### **General information**

#### Designation

Acer saccharum (L)

#### Typical uses

Lumber; veneer; sleepers; pulpwood; flooring; furniture; boxes; pallets & crates; shoe lasts; handles; woodenware; novelties; spools & bobbins.

## **Composition overview**

#### **Compositional summary**

| Cellulose/Hemicellulose/Lignin/12%H2O         |                 |   |      |          |  |  |
|---|-----------------|---|------|----------|--|--|
| Material family                               | Natural         |   |      |          |  |  |
| Base material                                 | Wood (hardwood) |   |      |          |  |  |
| Renewable content                             | 100             |   |      | %        |  |  |
